

Cover Letter

Dear Hiring Manager,

I am applying for IT Support, Networking, Graduate or Junior Technical opportunities. I recently completed a Diploma in Computer Networking and have developed skills in networking, troubleshooting, cloud computing, Linux systems and cybersecurity fundamentals.

I am eager to contribute to a professional team, learn from experienced colleagues and provide excellent technical support to users and customers.

Thank you for your consideration. I would welcome the opportunity to discuss my application further.

Kind regards,

Siphiwe August Nhlapo
